

## Basic Horse First Aid Workshop

Sunday 23rd September 2012

A really good workshop for those planning on buying their own pony in the future, and for those who already have a pony and want to improve on their general knowledge.

This workshop will start at 9am and finish at 4pm, with a half hour lunch break.

Students will learn the basics of how to prevent, recognise, treat, apply first aid to and know when to call a vet. Topics such as;

- Normal vital signs for a horse & how to take them
- Colic
- Greasy Heel
- Rainscald
- Seedy Toe
- Cuts and open wounds
- Tetanus
- Strangles
- The common cold
- Lameness/unevenness
- Hoof Abscesses
- And much more!

\$60 per person for the day including pre-prepared notes to take home! Please contact me to book your place.

This workshop is a VERY good idea for PARENTS who plan to or have already bought a pony for their child. As the parent, you are the person ultimately responsible for your child's pony, and this workshop can really help you be prepared for an emergency and be in the best position to help your child and their pony.

Payment must be made to reserve your place, and a 24 hour cancellation policy applies.

Please contact us for more information.
