

# Test Riding Skills Clinics

Are you finding the new tests a challenge?  
Do you know exactly what the judges expect at each level?

Let VICTORIA HAMILTON help you really understand what is required at your particular dressage level.

Each day begins with Victoria demonstrating the tests the riders choose to work on. This is invaluable for people who learn visually. She will explain warm-ups for different horses and various levels as well as giving tips on how to avoid common training and test riding mistakes.

RIDERS at these workshops then have a paired lesson with Victoria followed by the opportunity to ride a test of their choice with Victoria either helping them as they ride or discussing it with them afterwards and re-riding certain movements. Riders are encouraged to bring their video cameras to record their ridden sessions.

These are great days in a lovely environment with good yards for the horses and a covered arena with mirrors.
