## PONY CLUB MOUNT

### Rules:

- Commence course between the start flags.
- There will be ten obstacles on the course.
- Every obstacle must be attempted.
- Failure to complete the obstacle within three attempts will mean the competitor must move on to the next obstacle at the judges' direction.
- Riders must wait until the judge whistles before they move forward to the next obstacle.
- 45 seconds may be allowed for a rider to attempt each obstacle before being directed to move on by the judge.
- One or two refusals at a jumping obstacle will incur penalties, after three refusals at a jumping obstacle the whistle will blow and the rider must move on, the obstacle will incur a ZERO score as it has not been completed.
- A course will have a time allowed and a time limit. Exceeding the time allowed will incur penalty points. Exceeding the time limit will result in elimination.

### Gear:

- Snaffle bridle with an ordinary snaffle bit and cavesson noseband are preferred. Refer to current Gear Checking Manual for permitted gear.
- Not wearing a noseband will not incur any penalties.
- Boots & Bandages are allowed and will not incur penalties.
- Wearing of incorrect gear will incur penalty points.
- Whips are not permitted.
- Spurs are not permitted.
- Pony Club Badge with efficiency disc is optional for PC Mount presentation however not wearing it will result in a loss of points in the presentation score.

### Guidelines:

- The Pony Club Mount should be as forward going as its rider wishes, while being ridden in an ordinary snaffle bit and not needing any other artificial aids.
- The rider should be able to confidently and cheerfully ask their mount to approach unusual objects without stress.
- As a combination, they should proceed through the course calmly and confidently moving forward.

### Course:

- The Pony Club Mount course will consist of ten (10) obstacles.
- The course and time allowed will be announced on the day of the competition.
- The course time must be worked out when the course is built.
- The course diagram should be representational of the actual layout of the course and include detailed instructions for the rider, including pace and direction.
- At all times, with all obstacles, consider the safety aspect FIRST. The space available, surface, weather all have an effect on how a course can be designed and built.
- Be aware that not all children are competent riders although they like to try. Riders are encouraged to ride and enjoy themselves, we do not want them to be over-faced or frightened. Bear in mind the age group and skill level of the class when selecting obstacles to include in a course, i.e. a gallop is not suitable for under 12's.

- There may be natural hazards on the grounds where you are putting a course, i.e. a ditch or log which you can incorporate in your course.

### Scoring:

- Marks out of seven (7) will be given for each obstacle in the course, plus marks out of eight (8) for the attitude of rider and attitude of horse, plus marks out of seven (7) presentation and paces (i.e. A total possible mark of one hundred (100)).
- Failure of the rider to salute the Judge will incur penalties under "Attitude of Rider".
- When a rider is eliminated, they incur ZERO points
- If the pony refuses to negotiate one or two obstacles, the only penalties are the loss of time and the score/s for the obstacle/s. If the pony refuses to negotiate three obstacles, the pony and rider will be eliminated, however they may complete the course at the judge's discretion.
- Championships
  - Teams will be made up of three (3) riders.  
*NOTE:* The organising committee may decide if there are insufficient numbers in the 17 year and over age group for teams of three (3) that teams of two (2) will be formed.
  - ZERO points will be incurred by the team for each missing rider if there are less than three (3) members of a team.
  - The scores of ALL three riders count towards the final score.  
*NOTE:* A team with only one rider receiving a score may still receive a placing  
*NOTE:* The organising committee may decide if there are insufficient numbers for teams of three (3) that only the two best scores will count towards the final score.
- Penalties of 0.25 per second will be deducted from the scored marks for time over the Time Allowed.
- The Time Limit will be twice the time allowed.

### Scoring formula – 1 Judge

Total Marks – (seconds over time allowed x 0.25 = Time Penalties) – (penalties for gear etc.) = Final Score

i.e.  $70 - (6 \text{ sec} \times 0.25 = 1.5) - (4 \text{ penalties for drop noseband}) = 64.5$

### Scoring– 2 Judges – (Used for Championship Events)

$((\text{Judge 1 Total Marks} + \text{Judge 2 Total Marks})/2) - (\text{seconds over time allowed} \times 0.25 = \text{Time Penalties}) - (\text{Penalties for gear etc.}) = \text{Final Score}$

i.e.  $((70 + 65 = 135)/2 = 67.5) - (6 \text{ sec} \times 0.25 = 1.5) - (4 \text{ penalties for drop noseband}) = 62$

**Obstacles:**

There are many suitable obstacles not mentioned here, and there are numerous variations which can be incorporated to maintain interest.

	Variations	Judging points	Course Building
<b>LEAD</b>	<ul style="list-style-type: none"> <li>• Lead pony at walk</li> <li>• Lead pony at trot</li> <li>• Lead pony while walking over stepping stones</li> <li>• Lead pony through a pool noodle ring</li> <li>• Lead pony onto a step</li> </ul>	<p>The rider dismounts, runs up the stirrups or crosses the stirrups, passes the reins over their mount's head and walks or runs to the next point or across stepping stones, etc.</p> <p>The mount should walk or trot calmly beside the rider, neither hanging back nor rushing ahead.</p> <p>Rider should be leading from beside mount's shoulder; not in front dragging pony behind, nor allowing the pony to drag them along.</p>	
	<ul style="list-style-type: none"> <li>• Load &amp; Unload from float</li> </ul>	<p>The rider dismounts, runs up the stirrups, passes the reins over their mount's head and lead pony up the tail gate.</p>	<p><i>Safety must be considered before including a float in a course, i.e. suitable enclosed arena, age group and skill level of the riders.</i></p> <p>Float must be attached to a suitable vehicle All interior dividers must be removed. For safety ensure riders run up stirrups so they are secure.</p>
<b>JUMP</b>	<ul style="list-style-type: none"> <li>• Narrow Jump (i.e. bale of hay, no wings)</li> <li>• Jump (45cm, 60cm, 70cm – max height for each age group)</li> </ul>	<p>The pony should approach the jump at pace specified (trot or canter), and jump the centre of the jump with no hesitation.</p>	<p>Allow sufficient room for the rider to approach and depart the jump at the required pace, ensure that the surface is suitable. A large class may require the footing is checked and the jump repositioned. This possibility must be advised when the course is opened for walking.</p>
<b>REIN BACK</b>	<ul style="list-style-type: none"> <li>• Rein back set number of steps in straight line</li> <li>• Rein back through L shape</li> <li>• Rein back through a maze</li> </ul>	<p>The pony should be ridden up to the designated point and halted. The pony should then back up evenly in the desired direction.</p>	<p>The designated point to halt and commence rein back should be clearly identified.</p>

<b>RIDE BAREBACK</b>	<ul style="list-style-type: none"> <li>• Ride Bareback</li> </ul>	Pony to negotiate all or part of the course, not unseating the rider.	Safety must be considered before including bareback in a course, ie suitable enclosed arena, surface free of rocks etc, age group and skill level of the riders.
<b>MOUNT AND DISMOUNT</b>	<ul style="list-style-type: none"> <li>• Mount from ground, either side</li> <li>• Mount from mounting block, either side</li> <li>• Dismount, either side</li> </ul>	The pony must stand square and not shuffle feet or move out until the rider says so.	It may be appropriate to have a mounting block where a mount is required, even if not required for the course, to assist any rider who may have difficulty mounting. The mounting block should only be used after the rider has attempted to mount in the directed fashion. Points will be deducted but not elimination  The designated area where a mount/dismount/vault should occur on course should be clearly marked by a number, cone, flower pot etc. This assists both the judge & the rider
	<ul style="list-style-type: none"> <li>• Vault on, either side</li> </ul>	The rider must mount the pony without using their stirrups, either at a standstill, or at any given pace while the pony remains steady and under control.	
	<ul style="list-style-type: none"> <li>• Vault off, either side</li> </ul>	The rider must dismount from the pony at any given pace (generally a walk) while the pony remains steady and under control.	
<b>RIDE WITH ONE HAND</b>	<ul style="list-style-type: none"> <li>• Carry article around part or all of course and/or over jump</li> <li>• Remove pole from journal/cone &amp; replace</li> <li>• Remove and/or replace articles on/off drums</li> <li>• Carry coloured raincoat over front of saddle</li> <li>• Any other similar task</li> </ul>	The pony must approach the object calmly and stand while the object is picked up and/or put down and proceed around all or part of the course as required without fuss. Object must be held in hand, NOT mouth. Drop object if pony upset.	Any item to be carried must be easily dropped if the pony gets upset. Objects on ropes can be dangerous: it is recommended that no obstacle be used which is to be dragged or carried with the end trailing.
	<ul style="list-style-type: none"> <li>• Sword and Ring</li> </ul>	Usually done at the trot or canter; pony to pass close enough for rider to pick up ring with sword without breaking stride.	Allow sufficient room for the rider to approach the ring at the required pace from the point where the sword is collected.

<p><b>GATE</b></p>	<ul style="list-style-type: none"> <li>• Open and Shut Gate</li> </ul>	<p>The pony should approach the gate, then halt while the rider unfastens the gate. The pony should then walk calmly through and halt to allow the rider to close and fasten the gate again.</p> <p>The rider does not have to keep a hand on the gate at all times, but should be able to prevent the gate swinging and knocking the pony or the rider.</p> <p>A rider who can keep a hand on the gate at all times will score higher than a rider who does not.</p>	
<p><b>RIDE A SPECIFIED PACE</b></p>	<ul style="list-style-type: none"> <li>• Halt</li> <li>• Stand for 5 (five) seconds</li> </ul>	<p>Pony must stop when asked and stand quietly without fidgeting for the required time.</p>	<p>The designated point to halt should be clearly identified.</p>
	<ul style="list-style-type: none"> <li>• Walk</li> <li>• Trot</li> <li>• Canter</li> </ul>	<p>The pony should move out at the required pace without resistance, maintain the pace for as long as the rider requires and reduce pace when asked without resistance.</p>	<p>Ensure sufficient space is allowed for the rider to achieve the specified pace. It is not reasonable to expect a canter on a 10 m circle.</p>
	<ul style="list-style-type: none"> <li>• Gallop</li> </ul>	<p>The pony should move out as fast as the rider feels safe, and reduce pace when asked without resistance.</p>	<p>Ensure that the course has sufficient area for a gallop to be ridden. The specified track should be clear of any obstacles. Sufficient open space in the course needs allowed in the event a rider has circle to slow their pony down.</p> <p><i>The Gallop Is NOT SUITABLE for Under 12s or possibly for riders who have not achieved their "C" Certificate.</i></p>
<p><b>SLIP RAIL</b></p>	<ul style="list-style-type: none"> <li>• Slip Rail</li> </ul>	<p>The pony should approach the slip rail and halt while the rider dismounts and slips the top rail across. The rider then leads the pony over the lower rail and replaces the top rail, then remounts.</p>	<p>Ensure that the slip rail is light weight and easy to slide with one hand. The lower rail should not be set too high so as to penalise the smaller pony.</p>

<p><b>RIDE OVER AN OBSTACLE</b></p>	<ul style="list-style-type: none"> <li>• Ramp</li> <li>• Bridge</li> <li>• Tyres</li> <li>• Tarpaulin or other obstacle on ground</li> <li>• Other suitable obstacle</li> </ul>	<p>Pony to approach object calmly, may have a brief look, and cross at the required pace with NO FUSS.</p>	<p>Tarps should be secured so they are not affected by wind. Tyres, should be split in half; this is a safety measure, so ponies can't catch their feet The surface of ramps and bridges should be checked it is not slippery and that it is suitable for the weight of a horse to cross over it. A minimum width of 1m is recommended for any obstacle to be ridden over, length should be sufficient that the pony is not encouraged to attempt to jump the obstacle.</p>
<p><b>RIDE UNDER AN OBSTACLE</b></p>	<ul style="list-style-type: none"> <li>• Ride under clothes line (with clothes hanging on line)</li> <li>• Ride through deli strip curtain</li> <li>• Pool noodle ring</li> <li>• Other suitable obstacle</li> </ul>	<p>The pony must approach calmly; it may have a brief look and proceed calmly under the obstacle.</p>	<p>Ensure that the obstacle is securely fastened so that it cannot blow over. Height must be considered so that all riders can pass underneath safely without getting caught.</p>
<p><b>RIDE THROUGH AN OBSTACLE</b></p>	<ul style="list-style-type: none"> <li>• Maze</li> <li>• Bending Poles</li> <li>• Other suitable obstacle</li> </ul>	<p>To be ridden at a specified pace as asked, no rails or poles to be knocked, displaced or over-shot. The rider must stay within the bounds of the obstacle. Bending poles should be ridden smoothly and the horse not pulled into tight turns.</p>	<p>A maze may be poles laid on the ground and secured so they won't roll if stepped on. It may also be shaped by cones, elevated rails or other panels. Ensure that bending poles are set at an appropriate distance to allow for smooth turns. If a direction has been specified on the map the course layout should encourage riders to take that path.</p>
