 - Safety is paramount and a collision should be avoided at all times
 - before entering the warm-up area make sure the gateway and immediate track are clear
 - riders should pass left shoulder to left shoulder when on the track
 - when not on the outside track, e.g. on a diagonal line, riders should give way to horses on their left
 - the more progressive gait has priority on the track
 - halt should not be on the track
 - walk should not be on the track and does not have right of way
 - trot has priority over walk
 - canter has priority over trot
 - lateral work has priority over all paces
 - When circling, anticipate your return to the track so as to not stop the flow of other riders
 - mounting, dismounting and gear adjustment should be done off the track
 - Consideration should be given to behaviour of other horses in the arena that may upset your horse
 - it may be necessary if your horse is upsetting others to leave the area
 - if a horse is upsetting the majority, an Official should be sought to request that horse's removal for safety reasons
 - horses are to be lunged in the designated lunging arena.
 - lower level riders should not disturb the warm up of higher-level riders.
