

SPOOKY HORSE CLINIC

With Becky & Evie

OCTOBER 22ND 9AM- 1PM

VALLEY VIEW EQUESTRIAN 251 BUCKINGHAM RD KELMSCOTT

We are so excited to host this Spooky horse clinic!

Are your fears of the **“what-ifs”** getting in the way of you enjoying your horse? Do you want to get out and about with your horse but know there’s going to be a battle and you don’t know how best to handle things?

Learn to be a **relaxed** and **confident** leader for your horse. Understand your horses stress signals and how you can deescalate scary situations and get back to doing what you love.

Becky is a certified Equine Assisted Psychotherapist, and she will focus on our energy and body language and assist you in remaining calm and increasing your emotional intelligence to assist you with being a better leader for your horse. Becky can assist you with performance and relationship blockages getting in the way of your progress between you and your horse.

The day will be a mixture of fun and learning with an assortment of challenging situations in a controlled and safe environment. This will allow your horse to demonstrate its fears in a controlled environment resulting in an opportunity to work through them safely with guidance and support.

By the end of the workshop you will have new tools in your horsemanship toolkit and confidence to conquer spooky situations with ease.

This workshop is great for all levels of rider and horse with both in hand and ridden opportunities.

Young horses welcome however, please no stallions.
